"Cash Works Wonders"

We know to our own satisfaction that cash DOES work wonders, because we buy for cash and we know that it brings an advantage in price as well as independence in selection. We (or you) do not have to patronize merely one or two or three firms where we have "credit." We buy where we find the best bargains—we have CASH—we're independent. So are you if you pay cash.

Sale of Suits!

SOLDIER-FARMERS

MAINTAIN GRANT TRACT NEXT YEAR

Salvage and Reclamation Units May Again Take Charge of Acreage That Made \$10,000 in Year.

CAMP GRANT, Ill., Dec. 15.—Soldier-farmers of the salvage and reclamation units at Camp Grant, who caused widespread comment by operating a farm of 300 acres and showing a net profit of \$10,000 at the end of the year, may continue the work on a still broader scale next year.

While other troops are being mustered out of service here, there has been no mention of discharging the salvage division, and already plans are being made for a 1,500 tract next year.

The \$10,000 profit remained after deductions had been made for machinery depreciation and wages of \$2 a day for each soldier working.

Nearly 100 men had their crops in the field when Grant men began to sharpen plows. The soldier-farmers were in the field May 24. Twelve days after machinery had been purchased 275 acres of corn, 150 acres of hay, 40 acres of sweet corn, and 35 acres of potatoes were in the ground.

Hay was harvested at 132 per ton, 11,700 worth being turned over to the camp remount station; 4,785 bushels of corn brought \$6,000, and potatoes at 32 cents a bushel brought \$1,800. The unusually low price of 9 cents was made on sweet corn, as all of it went to camp mess tables. It brought \$285.

Until the report of late fall crops was made, government reports showed that cantonments all over the country were harvesting a total of 2,300 acres, a little less than half of which was credited to the Illinois camp. To cover this enormous tract only 20 men were used on the average, some of them working on night shifts last season. A lot of \$4,000 was spent for machinery, tractors, and seed.

Sweet corn was marketed, field corn was marketed in Chicago, potatoes were fed in camp, and oats and wheat were marketed here. Next year 100 of the proposed 1,500 acres may be shifted from truck to forage on account of labor.

Most of the soldiers picked—all of whom were from limited service units—were farmers, but there were some men who were inexperienced. While the soldier-farmers worked 18 hours a day, Grant farmers labored but eight hours. The work under these conditions was unusually fast.

High Findley, a Columbia university professor, came to Grant as government inspector in September and praised highly the work of Capt. Reall and Lieut. H. Gessner. He said that the effort is being made to bring Lieut. R. E. Franklin, now at Camp Funston reclamation camp, back to Grant, as he was responsible for the early work here. Lieut. Fillman is at present aiding Capt. Reall.

URGES CO-OPERATION AS FARMERS' PANACEA

ANNAPOLIS, Md., Dec. 15.—Speaking before the conference of governors here today, Gov. E. Lee Samuel R. McKelvie, of Nebraska, urged farmers to form co-operative organizations for purchasing and marketing and for the solicitation of loans at low interest rates.

Co-operation among farmers, he said, is the safest solution of most of the rural economic ills.

"If given the proper encouragement with all the barriers against it removed," he said, "co-operation will overcome the competition of urban agencies which operate uneconomically and will rescue the farmer from his own agency of distribution. The movement must be carried to the terminal markets."

Mr. McKelvie advocated a graduated tax on land and strict land lease laws providing for live stock and grain as the best means of dealing with the absentee landlord situation.

Gov. W. L. Harding, of Iowa, also urged co-operation for marketing. The "food produce gambler" must be abolished, he said, "and an efficient system of gathering information on the production of foodstuffs developed to guide farmers in determining when to buy and when to sell."

1918 MISSISSIPPI COTTON VALUED AT \$206,944,408

JACKSON, Miss., Dec. 15. (Sp.)—Mississippi's cotton crop for the current year, based on prices prevailing December 1, is worth \$206,944,408, according to an estimate made by J. A. Ramey, field agent of the United States department of agriculture.

This figure includes lint and seed, on Dec. 1 price basis, and the total yield is placed at 1,218,000 bales. It is the first time in four years that Mississippi has raised more than a million-pound crop, and indicates that the boll weevil is no longer to be feared as a serious factor in crop production.

A crop value of \$206,944,408 for the state means a gross income per acre of \$157.3, the total acreage being 2,247,000 while the average yield an acre was 141 pounds.

As usual Bollivar county led the state in production with 125,010 bales of 500 pounds each. Other counties in the "big yield" list are: Sunflower 92,015; Washington 80,222; Choctawhatchee 60,110; LeFlore 57,491; Quitman 40,212; Tallapoosa 45,000; Yazoo 38,796; Tunica 36,217; Madison 22,225; Holmes 37,912; Pontotoc 22,225; DeSoto 23,819; Hinds 26,205; Hancock was lowest on the list with only 80 bales and Jackson county showed 120 bales.

The yield of lint cotton varied from 212 pounds in Bollivar to 130 in Pontotoc. The total yield in lint was 49,312,725 pounds. Mississippi produced more than one-tenth of the entire crop of 11,700,000 bales and was one of the few states in the cotton belt that had a fortunate crop year.

UNION CITY WOMAN IS BURNED TO DEATH

UNION CITY, Tenn., Dec. 15. (Sp.)—Mrs. Marie Weaver, was burned to death when her clothing caught fire while standing before an open grate preventing her from escaping. She was badly burned when assistance arrived that she died Sunday.

A daughter, Mrs. Wiley Scott, and other relatives survive. Funeral services were conducted at Campground, where interment was made.

FORM BRINGS \$35,000.

COVINGTON, Tenn., Dec. 15. (Sp.)—A real estate transfer of much interest locally was the sale by George D. Green of his farm near Tiptonville to Messrs. Thomas Addison and Justus Paulk. The consideration is reported to be \$35,000. Possession is to be given Jan. 1.

DOCTORS SAY CALOTABS ARE BEST FOR COLDS

According to the world's greatest physicians and medical experts, Calotabs is the best and only dependable remedy for breaking up a cold—overcoming cutting short an attack of sore throat, deep-seated cough, influenza, or in grippe. Now that science has justified Calotabs of all its nausea and dangerous qualities, the new kind of Calotabs called "Calotabs" is even more popular than the old style.

One Calotab on the tongue at bed time with a swallow of water—that's all. No salts, no nausea, no the slightest interference with your diet, work or pleasures. Next morning your cold has vanished and your whole system is sound only in original rested condition. price thirty-five cents. Your druggist recommends and guarantees Calotabs and will refund the price if you are not delighted with them.

IF THE WORLD KNEW THIS

Much Suffering Would Stop.

Tells of a Home-Mixed Medicine for Colds, Cough, Bronchitis, Etc.

To Blackburn Products Co.: Dear Sirs—As I was mixing some more of the Mentho-Laxene in syrup this morning I could not help but wonder if you really knew what a wonderful cold remedy it is, even if you do put it up.

Last fall my husband, as he had tried so many remedies, and the doctor did not help him at all, when one day he happened to read an ad of your Mentho-Laxene and he said: "I will give it a trial, then give up, I guess, if it doesn't help me." But, can you believe it? He began to feel easier right away, and long before the first bottle was gone he was all over his terrible cough, and by taking a little when feeling hoarse just a little we both have worked off every bit of colds and coughs since, until Monday of this week he got his feet so wet and by night he coughed again quite badly, but this morning he was O. K. again.

This is 2:30 p.m., so you see how quickly it worked.

We have gotten ever so many others to use it by giving them a sample of cure.

This is just a line to tell you how grateful we both are to you and your remedy.

Yours truly,
MRS. GEORGE E. GATIS.
324 N. Hickory Street,
Covington, Mich.

Note—Mentho-Laxene is sold by all good druggists everywhere. A 2 1/2 oz. bottle of the concentrated essence makes a full pint of the most effective cold and cough medicine. Directions and guarantee of satisfaction accompany each bottle.
